PROFILE

I am a 6th semester undergraduate student at Daffodil International University, pursuing my Bachelor of Science in Computer Science & Engineering with a strong passion for Artificial Intelligence and Machine Learning. I love learning how model works under the hood and I am always eager and excited to explore new technologies. Passionate about storytelling through both fiction and non-fiction writing, as well as filmmaking. I am looking for opportunities to grow my skills and contribute to real world projects.

EDUCATION

Bachelor of Science **2025-2028**

Daffodil International University

- Computer Science & Engineering
- Current CGPA: 3.71

Higher Secondary Certificate **2021-2023**

Ghatail Cantonment Public School & College

- From Science Background
- Passed with GPA 5.00

Secondary School Certificate **2019-2021**

Ghatail Govt. High School

- From Science Background
- Passed with GPA 5.00

Junior School Certificate **2018**

Ghatail Govt. High School

- From Science Background
- Passed with GPA 4.71

SKILLS

Programming Language: C, Java, Python, Scikit-learn.
Software Tools: VS Code, IntelliJ IDEA, Anaconda, PyCharm, GitHub, MS Word, MS PowerPoint, Canva.
Technological Skills: Data Structure, Algorithms and Object Oriented Programming (OOP), Numpy, Pandas, MatplotLib, Seaborn.
Electronics Skills: Circuit Design, Electronics Components (Diode, Zener, Transistor, Capacitor, Resistor, LED).
Soft Skills: Punctual, Responsible, Good Communication & Behavior, Negotiation, Leadership, Critical Thinking, Problem Solving, Teamwork, Adaptability.
Future Interests: Data Science, Machine Learning, Natural Language Processing, Artificial Intelligence, Academic Research & Publications.

PROJECTS

- **Shuvrota E-Commerce Web System:** An end-to-end commercial web platform engineered under StratifyX Global to streamline online retail operations. Built with a responsive, user-friendly frontend and dynamic backend handling, it facilitates seamless product catalog browsing, cart operations, customer order workflows, and secure data transactions across diverse devices.
- **Daily Expense Tracker:** A terminal-based system developed using the C programming language to manage personal finances. It features secure data storage using File I/O, allowing users to add, view, and track daily expenditures with automated balance calculations.
- **DIU Food Delivery System:** A terminal-based management system developed in C specifically for the Daffodil International University community. It implements structured programming to handle menu selection, order processing, and bill generation, streamlining the food ordering process through an efficient logic-driven backend.
- **Light Activated Switch Module:** A hardware-based circuit project developed to automate lighting control based on ambient brightness. Utilizing an LDR (Light Dependent Resistor) and transistor switching logic, this project demonstrates a practical application of electronics and automated sensor-based systems.
- **Event Seating Allocator System:** A terminal-based software developed in the C programming language designed to automate and optimize guest seating arrangements. Utilizing custom logic and data structures, it processes guest lists, manages venue capacities, and applies algorithmic allocation rules to prevent seating conflicts and streamline event coordination.

CO-CURRICULAR ACTIVITES

DIU NLP & ML Lab **January 2026 - Present**

- **General Member**
- Active general member working with NLP lab.

DIU Computer Programming Club **January 2025 - Present**

- **General Member (Research and Journal Wing)**
- Active general member working with DIU CPC.

WORK EXPERIENCE

Content Writer **May 2026 - Present**

- Works as a Tech Content Writer at **StratifyX Global**.
- Write well research, clear and engaging technology based articles for the global audience.

CERTIFICATION

GoEdu - AI Powered Learning & Productivity Seminar **2025**

- Received a participation certificate for a specialized workshop focused on AI-driven productivity by lot of AI models also optimization of workflows using cutting-edge artificial intelligence tools.

AWARDS

Intra-School Quiz Competition **2017**

- Achieved 1st Place in a competitive quiz competition (2017) organized by Ghatail Govt. High School.

INTERESTS

- Writing stories and novels
- Filmmaking
- Watching and analyzing movies
- AI and technology
- Photography
- Traveling

LANGUAGES

- **English** (Average)
- **Bangla** (Fluent)
- **Hindi** (Average)
